Alumotive relaunches transport subcontracting

Last Thursday the press conference for the presentation of Alumotive was held at the Circolo della Stampa di Milano (Milan Press Club). Alumotive will be held at the Garda Exhibition Centre in Montechiari, Brescia from 2 to 4 April 2009. The gathering entitled "The transport industry looks to the future: Materials, innovation and eco-sustainability" was attended by representatives of public institutions, associations and companies interested in the topic of "sustainable transport". Present, among others, was Edoardo Croci (City Councillor for Mobility, Transport and Environment of the Municipality of Milan), who commented: "I am glad that Milan hosted this event, an opportunity to introduce Alumotive 2009. I see it as the first step toward a future collaboration between the Milan and Brescia administrations, both in the front line for an ever more sustainable traffic and eco-compatible

The Maciachini Center redeveloped for the 2015 Expo

The Maciachini Business Centre, in the north-west area of Milan, is one of the several projects under way for the 2015 Expo. The aim is to redevelop the area of the former Carlo Erba historical complex, one of the world's major industries producing drugs and chemical reagents. The "Maciachini project" consists in the construction of a multi-purpose park including offices, shopping centres, accommodation facilities, a fitness centre with nearby shops, a food park and public spaces for cultural activities and the spare time. The complex consists

Advanced evacuation for die-casting

The use of vacuum in pressure diecasting has brought about crucial improvements in quality. Evacuating gas and air from the whole of the cavity (die, injection system, shot sleeve and so on) minimises voids and pores and thus practically eliminates porosity in the cast product.
